## ABOUT ME

I am a Systems Engineering student at the University of Bosque, Bogotá D.C., currently in my seventh semester. My training included a technical bachelor's degree in electronics, complemented with a solid understanding of languages programming such as Java, Python and C++ at a basic level.

I especially stand out in the field of databases with a advanced and deep experience in SQL and PL/SQL, as well as in web development using Oracle Apex, and experience in managing of databases and OCI services.

## JOB EXPERIENCE

ORACLE DEVELOPER 2022 -Present

Verano Ingenieria / Colombia

Application Development in Oracle APEX - Application Maintenance - Database development and administration - Creation of APIS with RESTful - Support of services in OCI - Management of Primavera Suite integrations.

ORACLE APEX DEVELOPER 2023 -Present  
Independent

Custom Oracle APEX Application Development.

You can see my projects in my portfolio:
